RELEVANT EXPERIENCE

Partner, XVector Labs Inc. (Startup)

2025 - Present

- App development, Marketing, and Training responsibilities in support of revenue cycle management, supply chain and marketing solutions for clients delivered through an Agentic AI “no-code” data platform.

Advisor, Berkeley Skydeck, Startup Incubator at the University of California, Berkeley

2024 - Present

- Member of the Selection Committee that curates 1000's of applications down to ~30 finalists every year.
- Support startups in the incubator with expertise in consumer insights, product design, loyalty, marketing, and operations.

Vice President of Loyalty and Customer Experience, World Market

2021 - 2024

- Owned the \$800M, 30M+ member World Market Rewards Loyalty program while developing new initiatives, such as tiers, gamification, free gifts, and personalized offers, to increase retention by 700 basis-points (bps) to 80%.
- Launched a Credit Card product with Bread Financial that captured 2% of total member sales in a year and delivered \$850+ in annual incremental revenue per cardholder by introducing customer sign-up tools, training, and incentive programs.
- Defined and managed the Loyalty, CRM, Customer Service, Analytics, Consumer Insights, and Marketing Technology roadmap to rebuild and revive organizational capabilities and teams across all functional areas.
- Led the modernization of the MarTech stack by overseeing the introduction of Cheetah Digital, Attentive, and a Customer 360 system for loyalty tiers, 1:1 personalization with AI/ML, triggered benefits and gamified customer experiences.
- Boosted traffic growth by 1,200 bps by consolidating paid search and social agencies, relaunching SMS on Attentive, revamping eCommerce triggers, creating an Integrated Marketing task force, and co-marketing with partners.
- Developed 10 customer segments with in-depth profiles by running AI/ML algorithms on customer records and conducting qualitative research to understand motivations and behaviors. Augmented segments with LTV to guide planning.
- Drove customer growth of 4% and outperformed competitor retailers despite significant demand declines in home furnishings among US consumers.
- Generated \$20M+ in incremental growth during peak holiday periods each year by leading the design and deployment of innovative omni-channel loyalty bonus point campaigns with gamified components.
- Oversaw, managed, and empowered a team of 70+ employees and dedicated contract/agency resources by hiring experienced leaders and nurturing and promoting internal talent while managing a \$30M budget.
- Launched integrated marketing campaigns with minimal lead times, championed new and affordable products, introduced long-running high-value promotions, and increased the volume of surprise and delight offers.
- Established scorecards linked to the enterprise P&L, drove accountability with agency partners, and elevated the voice of the customer across the enterprise through training, reporting, tickets, and roadmap inclusion.
- Increased First Contact Resolution and Service Level from 80% to 85% and delivered CSAT scores of over 80% by overhauling operational processes and performing deep-dives into logistics, eCommerce, loyalty, and QA to inform decision-making regarding merchandising, packaging, logistics, eCommerce payments, and order management.
- Received recognition for World Market's customer experience from USA Today, Forbes, and Newsweek (2023-2025).

Head of Marketing Channels and Personalization Platforms, Petco

2019 - 2021

- Selected by the new leadership at Petco to expand marketing personalization capabilities, as part of an organizational rebuild. Contributed to the success of the 2021 IPO as a fast-growing \$5.0B revenue business.
- Lifted email engagement and revenue impact by 30-50% through 1:1 personalization, data governance, and optimized email operations in a mobile-first, modular framework with Einstein AI/ML, data-science models and automations in SFMC.
- Delivered \$12M+ in incremental revenue with a 14x ROAS by launching eCommerce cart and browse abandonment programs using an AI-powered identity graph from Wunderkind.
- Generated \$20M in incremental sales by establishing personalized customer onboarding journeys, creating personalized holistic care reminder messages, and building cross-sell and up-sell modules for retention CRM campaigns.

- Enabled high A/B testing velocity by integrating channel metrics from Salesforce Marketing Cloud with transaction data in Snowflake and customer data in Reltio and automating testing operations at scale.
- Set the vision and architectural foundation for a single-pane-of-glass customer service experience by onboarding and integrating Salesforce Service Cloud in the Call Center with Salesforce Marketing Cloud to enable higher CSAT and retention.

Group Vice President of Product and Program Management (Marketing), Albertsons Companies

2016 - 2019

Vice President of Loyalty, Albertsons Companies (acquired Safeway Inc)

2015 - 2016

- Led the development and expansion of “just for U,” an innovative hyper-personalized loyalty platform that leveraged multiple AI/ML algorithms to match customers with relevant offers, messages, and omni-channel experiences.
- Delivered 1% sales growth on a \$30B base and grew active customers on the loyalty platform from 1M to 10M+ by continuously introducing new features, content, and better usability based on customer feedback and data.
- Led migration and upgrades of Email/SMS, Websites, Digital Ads, Offers, and the Retail Media Network across the newly merged Albertsons Group stores and online channels. Replatformed 10+ websites to Adobe Experience Manager (AEM) with localized, personalized and refreshed content. This resulted in an annualized cost reduction of \$12M.
- Developed loyalty content, reporting, and processes to prioritize and focus on regional products and marketing priorities while proactively making adjustments to meet P&L goals of regional Division Presidents.
- Generated \$50M+ in annual brand funding from CPG vendors through systematic outreach, incentives, co-marketing, ROI reporting, quarterly planning processes and technology development.
- Drove 200M+ annual website visits and lifted app store ratings from 2 to 4.7 stars by leading research and creating customer journey maps to redesign 10+ websites/apps with personalized content, integrated eCommerce, and easier navigation.
- Developed and launched multiple eCommerce programs, including a pilot 3rd party seller marketplace with 40,000 SKUs and an eCommerce Meal Kit trial that led to the acquisition of Plated by Albertsons.
- Co-created multiple new digital products with key partners, including embedded rich-media promotions with Synqy, digital rebates with Quotient, and automated product recalls with Salesforce.
- Built and empowered 6+ high-performing onshore and offshore teams consisting of 60+ employees and provided hands-on coaching and training on digital analytics, program management, digital accessibility, and eCommerce catalog operations.

Vice President of Loyalty, Safeway Inc

2011 - 2015

Director of Financial Planning & Analytics, Safeway Inc

2009 - 2011

- Served as the CFO for the \$6B Perishables business group by driving strategic financial decision-making for product selection, pricing, promotions, labor, and operational improvements across 1400 US retail stores.
- Achieved a YoY sales growth rate 50 bps above peer business groups and improved profitability by \$100M+ in annualized gross margin by performing in-depth analysis, forecasting, planning, and daily reporting on thousands of SKUs.
- Created automated category promotion optimization tools and generated actionable data-driven insights on pricing and promotional planning for the Deli Foodservice, Bakery, Dairy, and Starbucks Kiosk businesses.
- Delivered an enterprise-wide AI/ML initiative sponsored by the CMO that drove sales growth and margin efficiencies by enabling cluster-specific assortment, pricing and operations using store-level customer and local market data.
- Reversed multi-year profit declines in the \$1.5B+ Bakery business through specific recommendations to improve the efficiency of product assortment, pricing and operations. Improved operating margins by over \$10M.
- Drove a 50% operating margin increase for 1000+ in-store Starbucks kiosks by leveraging data analytics to drive improvements to labor productivity, recipes, processes, and equipment.

ADDITIONAL EXPERIENCE

- Other Advisory roles: Marigold, Radiance Labs 2019 - 2024
- Manager of Finance, Safeway Inc 2006 - 2009
- Staff Program Manager, Broadcom Ltd 2001 - 2006

EDUCATION

- Master of Business Administration, University of California, Berkeley
- Master of Science, University of Texas at Austin
- Bachelor of Technology, Indian Institute of Technology Madras
